

# Jeet Panchal

Surat, Gujarat

With experience in developing captivating aesthetic designs along all spectrums of digital presence – be it websites or visual art graphics – there's no one better qualified than myself when it comes down to designing software products tailored toward your unique needs! Enthusiastically engaged every step of your journey right from brainstorming ideas through the final delivery phase -- all thanks mostly due in part to passion alone; whether building sites or writing code snippets- It's what drives me each new day.

## Work Experience

---

### **Graphic Designer**

eWebster LLP - Surat, Gujarat

July 2021 to Present

I've developed a great deal of expertise at eWebster LLP as a talented UI/UX Designer and Front-End Developer in producing websites that are both aesthetically pleasing and user-friendly. My specialty is creating user-friendly UI/UX designs that improve the user experience, as well as designing logos, banners, and other graphics.

I have developed my web development talents and acquired priceless customer management expertise via my job at eWebster LLP. I've gotten better at communicating with customers so that I can comprehend their wants and preferences and turn their vision into a compelling website.
